Bremen May Try to Take Off From Icebound Isle

Today
Time Heals Wounds
To Amaze an Atheist
Healthy Body, Healthy
Mind
King, Queen and Henry

BY ARTHUR BRISBANE

TIME heals wounds, banishes hatred and fear. We now await eagerly the coming of a German airplane. Suppose that plane had started in this direction DURING THE WAR.

CHARLES L. SMITH, an atheist who would not keep quiet about his opinions, was the subject of a sermon by Rev. Dr. J. H. Straton, Baptist, The First Lutheran church, Sunday.

He amazed would be the atheist, he added the speaker, if, imitating a German pilot, he should build a plane, launch it with water, and call down from the clouds for it to start its flight. Atheist Smith would feel that he had taken it back, after that.

A YOUNG boy, his spine straightened in a hospital, seems to have his mind "straightened" at the same time. Before the operation he was in pulling wings off flies, and other such things. That is ended.

A HEALTHY brain demands a healthy body. The greatest music cannot produce harmony with a diseased piano out of tune. Millions are saying that might be made better by men and women if they could get rid of the bad, back of reverence, and thus be contented.

INTERESTING gathering at Oliver's house of Lady Astor, who is staying at the British House of Commons.

King George and Queen Mary were seen by Henry Ford, and they were for two hours. King and Queen were about automobiles, but they did not say anything about them. They would like to know what the king and queen of England and the queen of Belgium from Detroit talked about. Ford will tell them when he returns.

ONE thousand letters, sent to 1,000 clergymen, Protestants, Catholics and Jews, signed by prominent Protestants, beg the 1,000 to preach peace and pray for a treaty "outlasting war."

Why not insert in each prayer a paragraph asking the Almighty to bestow on the government of the United States brains enough to prepare for war in case it should come?

THOSE clergymen praying for peace should improve success for a new combination uniting England and the United States under the leadership of Sir Alfred Mond, one of Britain's greatest industrialists.

Organized money has a good deal to do with war, and when organized money establishes international partnership it wants peace to boom business.

SIR JOSEPH DUVEEN, international art dealer, pays \$50,000,000 to the Central Presbyterian Church, New York, to get a bargain. Luxurious merchandise will be sold in the church in years to come more than anywhere else on earth. This is a good thing that long ago, but not now.

BRITAIN proposes that women shall vote as men do, at 21 years of age. An organization of dull-minded British women proposes a "50-50 League" to make men share men's perils. Unless women are drafted in war, say these women, gentlemen, women should vote.

HOW would the dull heads feel if women, in order to vote, had to register their immunity from childbearing? Women produce the human race, and if the production of children is a crime, with the suffering women with it at present, there should be any children.

THE lady Raditch, leader of Croats, says, says Mussolini is the man for war, to take Dalmatia from the Serbs. Raditch calls on five million Croats to stop Mussolini. It would be a million Croats that she would like to see.

MUSSEINI knows that Dalmatia belonged to Italy centuries before the war was heard of. Old Romans built roads and cities on that coast of the Adriatic. Mussolini is about it as the French felt about Alsace and Lorraine, and with the same result.

FUEL SUPPLY NOT REVEALED IN MESSAGE

Word Received by Agent of North German Lloyd Line in New York; May Plan Short Flight to Mainland

LACK OF GAS FORCES LANDING

Barren Island Haven for German and Irish Fliers. After 34-Hour Flight Against Ocean Sleet and Snow

NEW YORK, April 14—The Junkers monoplane Bremen will attempt to take off "some time today" from Greenley Island, Quebec, it was announced today by A. A. Schroeder, general passenger agent of the North German Lloyd Line.

Word to this effect from the trio of fliers was relayed by Canadian sources to Schroeder today.

The question of fuel supply was not revealed in the message and puzzled aviation experts here. The fliers exhausted their gasoline supply in their fight with head winds over the northern Atlantic, according to reports. The ice-bound island on which they sought refuge was not believed to contain any amount of fuel. It was suggested that perhaps the transatlantic fliers planned a short flight to some point on the mainland from where they could continue their journey to New York by other means.

By International News Service

The North Atlantic ocean has at last been spanned in a westward flight.

The monoplane Bremen is at Greenley Island, seven miles off the coast of Labrador, after a 34-hour flight during which it battled against sleet, snow, rain and headwinds.

Captain Koehl, Commandant Fitzmaurice and Baron Von Huenefeld are safe but they are marooned on an ice-bound island.

The Bremen was forced to alight because it ran out of fuel. In landing the plane's propeller was reported smashed and its landing gear damaged.

The Canadian Government has ordered the ice-breaker Montcalm to proceed to Greenley Island to rescue the fliers. The Montcalm is now on its way.

In Icebound Straits

Greenley Island is in the Straits of Belle Isle which are frozen over. News of the fliers' landing was brought to Point Amour, Labrador, where there is a wireless station by dog sled.

The Straits of Belle Isle separate Labrador from Newfoundland. The surrounding country is bleak. There is a fishing station on Greenley Island which is plentifully supplied with food.

Canadian Government officials are averse to sending a plane to Greenley. They say the attempt would be too hazardous and a landing might be impossible.

In spite of this, all of the incidents on his birthday seemed to bring him good luck instead of the misfortune usually associated with thirteens and Fridays.

Collects \$2,109 in Wage Assignments

Municipal Court Preparing for Quarterly Distribution of Fund

Six hundred and twenty-five checks representing money received in wage assignment cases during the first quarter of this year are being written in the office of the clerk of the Municipal Court, in preparation for mailing about May 1.

The 625 checks represent \$2,109.72 paid into Municipal Court by employers during the first three months of year. In the last quarter of 1927 approximately \$2,000.85 was distributed by the court.

The wage assignment plan, which was started with the establishing of the Municipal Court, is intended to take the place, as far as possible, of the old garnishee methods. Instead of the employer paying a portion of his employee's wages each week or month to a creditor as under the garnishee plan, the money is forwarded to the Municipal Court and is distributed among the creditors every three months.

DANCE HALL WRECKED BY EXPLOSION

Many Others Seriously Injured in Disaster at White Plains, Mo.; Gasoline Tank in Garage Beneath Room Lets Go, Belief

FIRE IS BATTLED ALL NIGHT

Rescuers Drag Victims from Beneath Fiery Embers as Walls Cave in; Theater Crowd Leaves Just Before Blast

WEST PLAINS, Mo., April 14—Thirty-four persons were killed and many others were seriously injured when a terrific gasoline explosion wrecked a crowded dance hall here last night.

Rescuers dragged victims from beneath fiery embers as the walls caved in and mountainous tongues of flame enveloped the debris. Two adjoining buildings were caught in the molten blast and soon were a mass of flames.

Throughout the night firemen battled the fire. Today officially the bodies of 33 young men and women were lined up in a morgue while almost as many more persons were in hospitals burned seriously.

Police here expressed their conviction today that an explosion of gasoline in the Weber Motor Co. destroyed the hall on the floor above.

At least 60 persons were known to have been in the dance hall when the explosion occurred. Authorities said the dance was a weekly affair, and stated that had it not been for a rain, the death list undoubtedly would have been much larger.

The weekly dances drew a crowd from many surrounding towns. This made the matter of checking the list of dead and missing difficult. Some of the unidentified dead are believed to have been from surrounding towns.

The fire following the explosion trapped many persons in the burning dance hall and their bodies were located beyond recognition before firemen and volunteers from among the townsmen, were able to bring the flames under control at 1 o'clock this morning.

The force of the explosion caused the walls of the structure to cave in and many of the dancers were literally blown off their feet and dashed against buildings across the street.

Blown Off Their Feet

Rescue workers were driven back from the burning building by the intense heat of the blast, and later were hampered when all electric lights were put out of commission.

The explosion was so sudden and the flames spread so rapidly it is feared some of the missing will be found in the debris.

CHRYSLER now adds rubber shock insulators to the Great New Chrysler "62." And at no increase in price! For the first time this great engineering feature is included in a car selling at \$1065.

Thus Chrysler becomes the one manufacturer to offer a complete line of six-cylinder models—"62," "72" and 112 h.p. Imperial "80"—priced from \$1065 to \$3495, giving the entirely new and modern conception of riding ease and quiet that only this specially engineered device can provide.

Floating in space—with not the slightest sense of mechanical effort—is the effect to which these rubber shock insulators contribute. Gone are all the road shocks and road sounds. Gone are all the squeaks and rattles. Gone is the need of the greater part of chassis lubrication.

This is but one of more than 40 features of the three Chrysler models which give leadership in the field of six-cylinder engineering to Chrysler.

By making possible this greatest riding luxury at its new low prices in the Great New "62," Chrysler again shows conclusively how its Standardized Quality of engineering and manufacturing gives extra value to Chrysler buyers.

New York Day by Day.

New York, April 14.—Nothing is so primitive as a prize fight crowd, even if it is a prize fight for the slugging match. There is a suppressed rudeness and warlike attitude of heavy black cigars as well as a subtle cynicism of human smiles.

Further artificialities of the civilization have been left the instant you join the line that leads away into Madison Square garden. You no longer say in referring to violence, "Don't forget your parlor manners," as a lady would say and spit on the floor.

A stomach that belts easily seems to prefer raw meat sandwiches sprinkled with catsup to the succulent winner enrobed between two loaves, gooey with mustard. You sneeze and sneeze through straws and swing it straight from the bottle. "Glor-glor-lug!"

You fall into easy familiarity with the sweated plug-ugly with a twisted nose and undershot jaw who clings to the prize money of talking out of the side of his mouth, if it is your buddy for the evening. There is an upward glow akin to that of back-slapping and a policeman.

Even a pale young ribbon clerk looks a gladiator. He will talk back and perhaps invite you outside if asked. It is all the most unstable tug of the primitive, the warp and weft of a strain in all that we do not quite understand.

We are not shocked by flying epithets. Knock the bum off! . . . What a large blackhead you turned out to be! . . . Stand up and take your socking, you yellow scoundrel! Whadda you care about a handful of teeth? . . . Chaining his neck . . . Slap his mug . . . Flatten his button . . .

Most of us with emotions a little fiercer than those of the stable hostler come away from such fiestas with a slight feeling of degradation. Yet for the moment we have been gripped and animated by the sheer animal vigor that sweeps the crowd. A great place—the market. There you believe Dr. Durant and all the boys who are a little snooty about our civilization, may be right.

Henry lives, the great banyan water, re-
fined his original name, "Banyan"
and later gave it a Chinese name to be
closest son, Henry B. Living.

The Japanese buyer expects the inside of
things to be more excellent than the outside.
Thus, ordinary cheap nickel-plated cup boxes
are often gold-plated inside.

A party of shikhs—most of the water—re-
cently visits a town for the first time. A
stone and motor cars fall from the sky.
But water faucets were closed and separated
and a staircase blind them to the water.

John Ellis, Britain's ruler, is a young
man; years, until his last year, 1900, he
is, is now appearing as a young man.
He plays the part of the first in a series of

"Joining The Church"

A SERMONETTE BY REV. HOWARD LOWER OLEWILER, Pastor, First Presbyterian Church

HERE are a few reasons why you ought to join Church by Rev. Daniel A. Telling printed in Presbyterian Ministry. I suggest that you read the article thoughtfully.

I OUGHT to belong to the church because I ought to be better than I am. Henry Ward Beecher once said: "The Church is not a gallery for the exhibition of eminent Christians, but a school for the education of imperfect ones."

I OUGHT to belong to the church because of what I can give to it and do through it as well as because of what I may get out of it. The church is not a dormitory for sleepers, it is an institution of workers; it is not a rest camp, it is a front line trench.

I OUGHT to belong to the church because every man ought to pay his debt and do his share toward discharging the obligations of society. The church has not only been the bearer of good news of personal salvation, it has been and is the supreme uplifting and conserving agency without which "civilization would lapse into barbarism and press its way to perdition."

I OUGHT to belong to the church because of memories; memories of things I can never forget; memories of faces that will never fade; memories of rows that are the glory of youth.

I OUGHT to belong to the church because of hope; hope that lives when promises are dead; hope that paves the way for progress; hope that vision peace and social justice; hope for time, and hope for eternity—the great hope that casts its anchor behind Jesus Christ.

I OUGHT to belong to the church because of the strong men in it who need reinforcing; the weak men in it who need encouraging; the reason in it who need rebuking. If I say I am not good enough my humility recommends me. If I sit in the seat of the scornful my inactivity condemns me.

I OUGHT to belong to the church, but not until I am ready to join a young church; not until I am willing to become an active partner with Jesus Christ.

Marion Pastor is No. 13 in Family of 16 Which Produced Three Ministers of Gospel

By FRANCES JENNINGS

At the threshold of a family of 16 Rev. William H. Howard, pastor of the First United Brethren Church, began his career as a minister 24 years ago.

There might be a tendency to surmise that Reverend Howard chose the ministerial profession as a means of "conquering the world" of having entered the world in the capacity of an "underdog" through the kindness of the kind figured in his choice, however, as it was made solely in response to a call from the service of God. Two of his brothers also chose the ministry for their life work.

In spite of the shadowy thirteenth, Reverend Howard has led a tranquil and successful life, first as school teacher, then as preacher. It has been largely a life of study and hard work, scarce not only to his church but to the community in which he lived.

Reverend Howard has been a life-long resident of Ohio, and was born on a farm near Lancaster in Fairfield County, the son of a farmer, and the descendant of a family of English extraction. He remained there until he was 21 years of age, receiving his education from the schools near Bremen and through private study while at home on the farm.

Begins Teaching
It was at the age of 21 that Reverend Howard began to teach, instructing a country school in Fairfield County. His next charge was at East Ringgold, O., where he served as principal of the Ringgold school for a five-year term. While at Harrisburg, where he held the position of school superintendent, and at the age of 34, he decided to follow the profession of two elder brothers, Ephraim, a Brethren pastor in Allen County, and John, pastor of the M. E. Church at Hillsboro. Both of these brothers are now deceased.

He chose the United Brethren Church, with which he became

affiliated when he married Miss Elizabeth Grove, a member of that faith. He had previous to that time been a member of the German Reformed Church near Bremen.

Reverend Howard was at that time studying a number of different high school and college courses as well as 25 theological branch studies. He completed 40 studies with grades of 86 plus, was presented a high school diploma for 21 studies and was obtained into the ministry of the United Brethren Church at Ashville in September of 1908 by Bishop Mills.

Previous to that time, however, at the age of 34, he had begun his first pastorate at the Gallop was First United Brethren Church, where he served a three-year term. All of the churches to which Reverend Howard devoted his services bore the same name as his present pastorate, "First United Brethren."

After leaving Gallop, Reverend Howard spent five years in Portsmouth, three years as a North Baltimore pastor, five as the U. B. pastor in Bryan and six years at a Lima pastorate, before coming here.
